

## **Report From Moulton Panther FC for season 20/21**

### **Alan Sheldrick - Chairman**

Good Evening,

Having taken over the role of chairman of Panthers FC in October 2020, whilst still in lock down, things have been rather quiet on the pitch because of Lockdown. Behind the scenes the committee have been working their socks off to make sure the club is still functioning and moving forward so that we can still bring football to the village.

As in all organisations we rely heavily on fundraising and because of lockdown its had a detrimental effect on our club, I'm hoping that we can hold some fundraising events in the near future to help amend this.

Currently we hold three youth teams, Under 9's mixed, Under 15's Girls and Under 16's boys who all currently play home games on the Village playing field, generally there is a game or two every week in the season. All teams have done an amazing job to stick together and work through the Lockdown, their commitment to their managers has shone through. We would welcome any spectators once the FA say we are allowed.

Next season will see all current teams continuing with the addition of a new under 9's team coming in who will be playing home games at the school due to current license agreements.

We are on the look out for a club secretary and any other volunteers that would like to join, especially fundraisers, pitch markers etc.

We are also looking to introduce youth coaches and referees (14 years and above) to help start them on their coaching and referee paths, we have one so far, more are welcome.

Lastly, thank you to the Parish council for extending our license agreement to allow football to continue this season after everything everyone has been through.
