Q&As

In rural areas, where lighting is low to non-existence, this reflective gate post and fence marker can play a critical role in ensuring cars and other vehicles arrive safely at their destinations, without damaging property.

SSP's gate post markers are made from high quality, class reference 2 reflective aluminium. This marker has a screw hole in each corner to make it easy to affix to wooden posts and fences. Alternatively, it can be bonded to a flat metal upright with adhesive.

Featuring a honeycomb prismatic finish, as soon as a vehicle's headlights hit the marker, it lights up to ensure vehicles can safely navigate their way to their ultimate destination without colliding with your gate or fence.

Location	Proposed measures	Approximate Cost	Supplier

			SCC
Approximate total:		£6,000	

Total for all works: £30,000

Money allocated so far: £16,600

Money allocated in 2023/24 budget: £5,000

Shortfall: £8,400

Options:

1. Use money allocated for village project 2022/23 £5,000 and ask Andy if he would be willing to make up the shortfall.
2. Rolling programme over the next few years.

Note:

If we programme all the work at the same time we could find out from Highways if the costs would be reduced.
